

Maureen Davison's gorgeous floral arrangement,
designed to represent Australia in the MFAH's

Biannual "Florescence: Elements" Event

The arrangement was included in the "Art by Invitation" class. Consulates of all nations included in The Asia Society were invited to present a floral arrangement representing their country, and the Australian Consulate/Houston asked Maureen, who is already well-known for her lovely floral arrangements for Australia Day, and other events, to represent Australia.

Maureen selected native Australian flowers -- gingers, proteas, agapanthus, orchids, kangaroo paws, etc., along with tropical greenery, for the arrangement, and added Australian flags and a koala.
